

CARDLINE PC/FM TEMPLATE

TEMPLATE MEASUREMENTS:

BLEED AREA (Yellow): 93mm x 57mm

TRIM SIZE (Black): 90mm x 54mm
5mm Radius Rounded Corners

SAFETY MARGIN (Grey): 86mm x 50mm

HOW TO USE TEMPLATE:

Create a new file in your artwork program, using the BLEED AREA measurements as the page size.
Import/Place the PDF template into the document.

Photoshop users: You will have to manually set the Resolution & Colour Mode when importing PDF.
Please ensure Resolution is at least 300 DPI & Colour Mode is CMYK.

Place non-printing guides along the outside edges of the black TRIM SIZE box.

Place non-printing guides along the outside edges of the grey SAFETY MARGIN box.

When creating artwork, backgrounds/wallpapers must cover the yellow BLEED AREA.

Any artwork that is required to be seen after cutting must be inside the grey SAFETY MARGIN.

Delete all non-printing objects prior to uploading the file.
